## Legislative Updates

---

After thoughtful deliberation and discussions with constituents and organizations in HD115, our office has filed 19 bills to make the healthcare system more efficient and easier to navigate for the citizens of HD115 as well as all Texans. Also included are bills related to more comprehensive automobile coverage and a fairer more transparent justice system. In addition to authored bills, Representative Johnson collaborated with members of both parties to Joint Author 10 bills and Co-author 12 bills relating to Medicaid transparency, electronic voter registration, environmental quality and the rights of sexual assault survivors.
